BEST FINANCIAL PAGE IN WASHINGTON

General Trend in Wall Stree Indicates Uneasiness Over Mexican Situation.

new York, June 22.-More of the cha acteristics of a stock market engage in a process of discounting an approac to war by the nation were displayed it today's session. There was still no ex-pansion of volume, but trading was main pansion of volume, but trading was main tained on the recent average scale of activity, and most of the dealings orig inated in a pressure of sales. Offering were well absorbed in the forencon, whe the list manifested a fair degree o stability, although there were surfac-signs of nervousness. About the begin ning of the last hour liquidation wa atimulated in different directions by th success of very evident speculative at tempts to uncover ultra weak margin ac-counts. The response which was elicite was a further proof of technical un-soundness in many quarters of the mar was a further proof of technical un-soundness in many quarters of the mar-ket, and the continuation of liquidation on this score can only be regarded as conducing to a restoration of strength to the price structure. The close was active with little or no raily in the de-scriptions which had declined most ex-tensively. tensively.

A peculiar circumstance was stadiness displayed by some of the stocks conspicuously affected by a Meximan interest. Doubtless this was owing to aupport, but the general run of rails and numerous standard industrials, conspict ously United States Steel, displayed firmness. A sale of government threes at a half point decline was a significant token of the attention which the financial token of the attention which the financia community was paying to the Mexicar crisis. Industrial Alcohol and some of the prominent war munition specialties. Were leaders in the day's downward movement, a fact which pointed the conclusion that poorly protected speculative holdings were being disloged.

COTTON MARKETS.

New York, June 22.—Ootton was strong today. Despite active realizing in the last hour, the list hald well at a comparatively slight reaction from the top. A report was current that a local house had been planning to tender on July was selling its apot at a considerable premium over that position and covering short hedges. Final prices showed a net gain of 25 to 32 points.

A fair business was done in spot at Liverpool, with prices seven points lower. The sales were \$3,000 bales, including 6,000 bales American. The imports were 13,000 bales, of which 11,000 bales were American. Futures ended easy at a net said vance of 3% to 5% points. Spot here was steady at an advance of 35 points, at 13.45. The sales were American. Futures ended easy at a net said vance of 35 points, at 13.45. The sales were said bales. sat an advance of a ware 3,662 bales.

NEW YORK MONEY MARKET.

New York, June 23.—Money on call at the stock exchange opened at 3 per cent; high, 3½ per cent; low, 3½ per cent; close, 3 per cent. How, 5½ per cent money showed an increasing demand and a greater number of borrowers, with no appreciable increase in either amount offered nor in numbers of enders. This resulted in a framess in tone, and a disposition to hold rates at least at their present level. Industrial loans were more carefully scrutisized, and full margins were required. Rates of 3½ per cent was quoted from practically all dates on high-grade mixed and on industrials, 3½ per cent for skry days, 4 per cent sometimal increase with attractive assortiment of names. Out-of-town bayers were almost the only class in the market and 4 per cent appeared to be their minimum rate. Rates: 3½ per cent for 30 to be their minimum rate. Rates: 3½ per cent for 60 to be their minimum rate. Rates: 3½ per cent for 60 to 50.

CHICAGO GRAIN MARKET

Chicago, June 22.—The wheat market, while confined to the trade by professionals, was quite choppy, and closed at declines of walk for the nearby months, while the deferred were unchanged. Weather was clear in the winter wheat belt with the exception of light rain in Eastern Nebrasica. Farmers are selling wheat as rapidly as it can be moved to primary markets. When the large receipts are considered, especially those in the markets of the United States and the sales of cash wheat today were only 25,000 bushels to millers at Chicago and 160,000 bushels Manitobs at the Seaboard, conditions certainly favor the bears in this grain.

worth of Potomac Electric Power First 5s at 106 featured the bond list. Another large bond sale was that of \$5,000 worth of Washington Railway and Electric 4s at \$15-8. A \$500 bond of the same company sold at \$21-4.

Other sales included \$3,000 worth of American Graphophone first 6 per cent bonds at 101; a Chesapeake and Potomac Telephone 5 at 104; 10 shares of Washington Gas etock at 76; 2 shares of Washington Railway and Electric 4s shares of Washington Railway and Electric 5s shares of Washington Railway and Electric preferred stock at \$21-4, and 20 shares of the common stock of that company at \$13-4 to \$21-4.

The regular semi-annual dividend of 3 per cent has been declared by the Second National Bank, payable July 1 to the second National Park Potomorphisms of the second National Potomorphisms during the day. While the Wilson managers are awaiting the action of the Republican organization before completing details, the President is making a careful canvas of the field for members of this strategy board, the executive committee. Among those considered are Secretary of Treasury McAdoo, Henry Morgenthau, A. Mitchell Palmer, Frederick W. Steckman and Senator Oille M. James.

A troublesome question confronting the Wilson forces is the rising of campaign funds. This subject will be taken up today. The funds of the national committee are low and some scheme for replenishing the coffers must be worked out.

Administration politicians resent the suggestion that there is political significance in the President's Mexican policy, although the charge that any moves made now will be tinged with politics is freely made in Republican quarters. Senator Husting, of Wisconsin, told the President he had received many letters from Germany Americans, endorsing the

mission in Debate on Rate Increases.

The trouble was precipitated by Senator Newlands, who offered in the Senate a memorial from the Chamber of Commerce of the United States proposing to its membership a referendum on a proposed resolution of Congress directing the In-terstate Commerca Commission to investigate the controversy between the railroad managers and their employee

tary authorities, consisting of R. H. Aishton, president of the Chicago and Northwestern; W. G. Besler, president of the Central Railroad of New Jersey: A. W. Thompson, of the Baltimore and Ohio, and President Fairfax Harrison, of

But to-day it is the largest city in that prosperous provincethe busy trading centre of an immense stockraising and mixed farming district.

It is the chief supply station of large mining areas in both Alberta and British Columbia, with natural gas and cheap electric power to attract the manufacturer. From the roof garden of the Palliser one sees the Rockies round which blows

the warm Chinook. The Canadian Pacific has invested over \$15,000,000 on this irrigation project which has 1,600 miles of canals and ditches in its Western section and will

have 2,000 miles in its Eastern.

The immense dam at Bassano, 7,000 feet in length, and the giant aqueduct at Brooks, are the greatest engineering structures of their kind on the North American continent.

Water State of the State of the

Near Calgary are located the large Ogden shops for the repair of rolling stock of the Western Division of the Canadian Pacific.

The banker or investor desiring to see a progressive Western Canadian City and study the benefits of a constructive railway policy will find what he wants in the Calgary district.

The Washington Office of CANADIAN PACIFIC RAILWAY is at 1419 New York Ave.
